## PRESS RELEASE

**October 20, 2014** – San Diego Defense Lawyers is pleased to announce that beginning in 2015 it will offer **two new types of membership**.

For the first time, **the organization has created a membership level for paralegals** who are primarily involved in civil defense litigation. The paralegal membership is focused on providing a cost-effective means to obtain continuing education credits at SDDL programs. SDDL offers approximately 16 separate continuing education events each calendar year, covering all necessary subject areas including recognition and elimination of bias as well as substance abuse and impairment of professional competence. The paralegal membership entitles the member to access to all SDDL continuing education events.

San Diego Defense Lawyers is also pleased to announce that **new members will be offered a discounted first-year membership**. Starting in 2015, new member dues will be \$125. This is a \$35 discount designed to encourage San Diego defense attorneys to join the organization and learn of its benefits. Regular membership dues for 2015 will be \$160.
